Contents of Volume 16

Volume 16 Number 1 January–February 1994

Abstracts of papers presented at the International Symposium on Laboratory Automation and Robotics (October 1993) 1

Guidelines for the identification and distribution of patient samples in the medical laboratory
P. A. Bonini, N. Alpert, M. Luzzana and R. Rubin 25

Development of fully-automated synthesis systems
T. Sugawara, S. Kato and S. Okamoto 33

Volume 16 Number 2 March–April 1994

Nomenclature in laboratory robotics and automation (IUPAC Recommendations 1994)
H. M. Kingston and M. L. Kingston 43

Unsegmented flow approach for on-line monitoring of pH, conductivity, dissolved oxygen and determination of nitrite and ammonia in aquaculture
A. C. Ariza, P. Linares, M. D. Luque de Castro and M. Valcárcel 59

Enzyme reference materials: their place in diagnostic enzymology
D. W. Moss 63

Increasing the biosafety of analytical systems in the clinical laboratory
A. Truchaud, P. Schnipelsky, H. L. Pardue, J. Place and K. Ozawa 67

A multi-channel photometric detector for multi-component analysis in flow injection analysis
Aimin Tan, Jialin Huang, Liudi Geng, Jinhua Xu and Xinna Zhao 71

Volume 16 Number 3 May–June 1994

Abstracts of papers presented at the 1994 Pittsburgh Conference 75

Volume 16 Number 4 July–August 1994

Special Issue

International Symposium on Laboratory Automation and Robotics 1993—Management Papers

Key issues for establishing a robotics laboratory in the pharmaceutical industry
S. Conder 117

Bioanalytical automation: history and future plans
R. H. Farmen 121

Laboratory automation: a challenge for the 1990s
C. Mordini 125

The role of the automation development group in analytical research and development at Dupont Merck
J. C. Lynch, J. S. Green, P. K. Hovsepian, K. L. Reilly and J. A. Short 131

Decentralized management of laboratory automation
D. Chambers 135

Prejudice, segregation and immigration laws—integration of the robot into the laboratory society
N. E. Fraley, Jr. 139

New products 143

Volume 16 Number 5 September–October 1994

University of Plymouth: Inaugural Lectures. Introduction 151
L. Ebdon

Environmental monitoring—a flow-injection approach
P. J. Worsfold 153

Developments in laboratory automation—just a matter of time
P. B. Stockwell 155

Polymer characterization with a fuzzy classification algorithm
D. J. Ramsbottom, M. J. Adams and J. Carroll 161

IFCC methods for the measurement of catalytic concentration of enzymes. Part 8. IFCC method for lactate dehydrogenase (L-lactate: NAD^+ oxidoreductase, EC 1.1.1.27)
R. Bais and M. Philcox 167

Use of a robotic station for full automation of the determination of organic matter in soil and fertilizers
P. Torres, J. A. García-Mesa and M. D. Luque de Castro 183

Automation of a fixed-bed continuous-flow reactor
R. Alcántara, L. Canoira, R. Conde, J. M. Fernández-Sánchez and A. Navarro 187

Volume 16 Number 6 November–December 1994

Automated synthesis of radiopharmaceuticals for PET: an apparatus for [1-^{11}C]labelled aldoses
S. Nishimura, K. Yajima, N. Harada, Y. Ogawa and N. Hayashi 195

Automated simulated distillation using an articulated laboratory robot system
W. F. Berry and V. Giarrocco 205

Automation of environmental ELISAs
C. B. Shumate, J. E. Johnson, D. A. Fitzpatrick and C. Charan 211

Automated synthesis of radiopharmaceuticals for positron emission tomography: an apparatus for labelling with [^{11}C]methyl iodide (MIASA)
D. G. Cork, H. Yamato, K. Yajima, N. Hayashi, T. Sugawara and S. Kato 219

Positioning laboratory automation for today's dynamic climate
D. G. Vogt 231

Index of Authors 235
